Email: vishwajeetsurvase28@gmail.com
Github: github.com/Vishwajeet-2005
Mobile: +91 8668636394
Portfolio: Vishwajeet-Portfolio.com

SKILLS

Languages:	Python, Java, C, C++, JavaScript
Frontend:	HTML5, CSS3, React.js
Backend & APIs:	Node.js, Express.js, FastAPI, REST APIs
AI/ML:	Machine Learning, NLP, Deep Learning, PyTorch, Scikit-learn, Hugging Face
CS Concepts:	DSA, OOPs, Operating System, DBMS, Git, SQL
Tools/Practices:	VS Code, GitHub, MongoDB, Vercel, Render, Google Colab, Applied AI
Soft Skills:	Problem-Solving, Team Collaboration, Adaptability

PROJECTS

Mentor AI — AI Learning Platform + Chatbot | *HTML, CSS, JavaScript, Node.js, Express.js, Gemini API* Mar '26

- Developed a full-stack AI-based chatbot application using Node.js, with API integration and JSON-based data storage for dynamic response handling.
- Implemented conversation-handling logic with contextual memory to support coherent multi-turn interactions.
- Built a responsive frontend with HTML, CSS, and JavaScript, focused on smooth real-time user interaction.
- Optimized API response handling and application flow to improve reliability and user experience.

Real-Time Process Monitoring Dashboard — Full-Stack System Tool | *Node.js, JavaScript* Nov '25

- Designed and developed a real-time monitoring application to track CPU, memory, and active-process metrics.
- Built backend logic to collect, process, and stream live system performance data efficiently.
- Developed an interactive UI for real-time data visualization, aiding faster identification of performance bottlenecks.
- Applied debugging and performance-analysis techniques to improve data accuracy and application responsiveness.

NeuralBias — AI-Powered News Bias Detection System | *Python, PyTorch, Distil BERT, Fast API* Jun '26

- Developed a hybrid NLP system combining *fine-tuned Distil BERT classification* with Gemini-powered semantic reasoning for political news-bias analysis.
- Built a transformer-based text classification pipeline using *Hugging Face Transformers and PyTorch* for automated bias detection.
- Integrated the AI pipeline with a *full-stack dashboard* using Node.js and Fast API to present classification and semantic analysis results.

CERTIFICATES

AI-Driven MERN Stack Bootcamp | *Lovely Professional University*	July '26
React.js Certification| *Tech Veda*	Dec '25
Database Management System | *Infosys Springboard*	Aug '26
Data Structures and Algorithm | *iamneo*	April '26

ACHIEVEMENTS & EXTRACURRICULAR

- 2nd Runner-up, University Hackathon "Web-e-thon", Lovely Professional University.
- Head of Tech Team, INFERNO Club — Led technical initiatives and development activities, communicating plans and collaborating with team members to build and deliver technical projects.
- Participated in a hands-on workshop covering *Cyber Security & Ethical Hacking* at Lovely Professional University.
- Participated as a *CyberSmart Volunteer*, supporting the CyberSmart initiative and engaging in activities focused on cybersecurity awareness.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 24 – Present
Computer Science and Engineering; CGPA: 7.27
